

The Applicant has also taken this opportunity to correct a minor clerical error in claim 194. In particular, a comma was missing after the term "claim 193" in claim 194, and the amendment to claim 194 inserts a comma where appropriate.

As disclosed in the specification, the present invention may be embodied using many combinations and sub-combinations of features. Claim 193 represents the present invention as embodied by a particular combination of features. To avoid confusion with other combinations and sub-combinations of features, the Applicant has hereby amended the Summary of the Invention and Abstract sections of the specification to conform to claim 193 as amended.

Submitted herewith is a document (entitled Exhibit A - Listing of All Claims and Amendments (02-27-2007)) containing a listing of the claims as currently presented. The Listing attached herewith contains the amendments to the Summary of the Invention and Abstracts sections, the text of each pending claim (amendments made hereby are illustrated using strikethrough and underlining), and the status of each pending claim.

Given the foregoing, the Applicant respectfully submits that currently pending claims 193-208 and 210 are in condition for allowance, and such allowance is respectfully requested. If there is any matter which could be expedited by consultation with the Applicant's attorney, such would be welcome. The Applicant's attorney can normally be reached at the telephone number below.

Signed at Bellingham, County of Whatcom, State of Washington this 27th day of February, 2007.

Respectfully submitted,

BROWN et al.
